

TESTIMONIALS

We receive letters from many businesses that have used the Super Bee™ and learned how much more productive they are and the better results they receive from using the Super Bee™.

Dear Sirs,

Just a note to say how much the Super Bee has improved my business. The jobs are cleaner, the edging is perfect, and my health is improving because of not being on my knees or bending over to use a typical edger. The Super Bee does closets, bathrooms, hallways, kitchens, foyers, etc., beautifully! I'm so glad to have the Super Bee in my floor sanding arsenal.

*Thank You,
Tommy Simmons, President
